EXPERIENCE (7 YEARS)

2024 -
Present

PRODUCT DESIGNER / PROJECT SPECIALIST

Sourcecode Tech Solutions - Qatar

- Led end-to-end UX initiatives by conducting in-depth research and ideation sessions to define digital product strategies aligned with user needs and business objectives.
- Directed the creation of wireframes, prototypes, user stories, and user journeys across multiple devices and platforms, ensuring consistency and usability.
- Oversaw the identification of design issues and collaborated with cross-functional front-end and back-end teams to implement practical, scalable solutions.
- Presented design concepts, strategies, and decisions to stakeholders, facilitating alignment and buy-in across product and development teams.

2022 -
2024

UI/UX DESIGNER

Rankoussi - Qatar

- Researched, conceptualized, and prototyped user experiences to align with business vision and digital product strategy.
- Designed and delivered wireframes, user stories, user journeys, and responsive mockups for web and mobile platforms.
- Identified usability issues and design challenges, proposing data-informed solutions while aligning with technical feasibility.
- Engaged in user-centered design processes, leveraging testing and analytics to support design decisions.
- Collaborated with cross-functional teams, including product managers, developers, and stakeholders, to deliver impactful features and user flows.

2019 -
2022

GRAPHIC DESIGNER

Amala Media House - Calicut, India

- Conceptualizing visuals based on requirements.
- Prepare rough drafts and present ideas.
- Testing graphics across various media.
- Conceptualize visuals based on requirements.
